

Neighborhood Infrastructure Driveway Repair Program

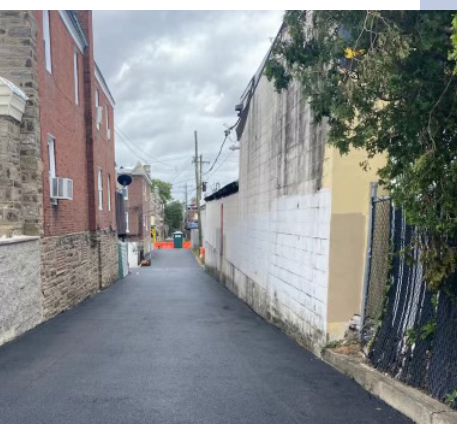

Applications are now open.

Contact your district City Council member's office to begin program intake.

Please review the following guidelines for submission:

- Must be a driveway that has two points of egress and located in the city of Philadelphia.
- The driveway must have structural damage that includes large concrete craters or holes, crumbling pieces of cement or asphalt, etc. Dead end driveways are not eligible for the program.
- The driveway should provide vehicular access and private parking to two or more private residences.

For more information, please visit the “Find My Council Member” page to contact your local councilmember, or you can visit: www.phdcphila.org/driveways
